Subject: RE: Rule 21 Workgroup Meeting 72, December 14th

Chuck:

Here is the file with scenarios for combined technologies applications, interpreting the NEM law, for a WG R21 meeting.
Please post for WG discussion, for it is describing "Energy" amount rather than "Power", as discussed on the last session, in San Diego.
While power export is addressed in R21 tariff comprehensively, it is still unclear why various methodologies have been searched for combined technologies for "power" export. The only driving factor for power export consideration should be technical, driven by other sections covered in R21.

An Energy export to the grid calculated at the end of the year will establish baseline for accountable amounts. The attached file will support further the City of San Diego position.

I might not be able to attend the next meeting in SF, but would like to discuss or hear a feedback later.

Thanks,

Michael Mazur, PE, MBA

Subject: FW: Rule 21 Workgroup Meeting 72, December 14th

Jerry Jackson has provided the following information on the meeting location.

When the meeting starts at 9:30, we will all be meeting in Room CR 301-B.
If you arrive late, you may find we have moved to CR 895.

Chuck

Hello Rule 21 Workgroup:

Due to the limited conference room availability on Wednesday, December 14th, I have reserved the following conference rooms:

- * CR 301- B, 77 Beale: 8:00 to 10:30 a.m.
- * CR 895, 77 Beale: 10:00 to 12 noon

- * CR 3089, 77 Beale: 12 noon to 5:00 p.m. (break-out session)
- * CR 3102, 77 Beale: 12 noon to 5:00 p.m. (break-out session)

Directions
Take BART from the Oakland Airport, exiting at the Embarcadero Exit. Proceed westward, and after taking the escalator/stairs, exit at the southeastern side towards Beale Street. Proceed down Beale Street, and at the waterfall enter the high rise building, 77 Beale Street. As I will be busy escorting attendees to the conference area, please page me at (415) 253-1757 if you need any assistance.

Security
Due to security concerns, I will be asking folks to check-in with "Security" at the 77 Beale Street entrance. Periodically, I will escort groups up to the 3rd Floor conference area. For the conference rooms on the 3rd, 30th, and 31st floors no "access" security card will be required to gain access to the restrooms. For the short time we will be on the 8th Floor, an access card will be required to use the restroom facilities. Please see me for assistance.

Lunch
Lunch will be from 12 noon to 1:30 p.m. at Gordon Biersch. At the start of the workgroup the 1st order of business will be for you to select one of the four entrees, one of which is vegetarian. There will be one check for the whole group, and hence the need for individual \$25.50 cash infusions. Each meal includes a salad and a chicken skewer appetizer. It will take approximately 15 minutes to walk from 77 Beale to the restaurant. If the weather holds, it should be a nice walk along San Francisco's beautiful waterfront. We have had so many "working-lunches" we thought that it was time to depart from that protocol. Please let me know if you require special transportation arrangements due to any physical limitations.

I'm looking forward to a productive and enjoyable workgroup.

See you there,

Jerry Jackson
